Enjoying God's Creation Through Adventure Recreation

“Be still, and know  
that I *am* God”  
Psalm 46:10

# High Adventure TREK Camp

The wilderness creates the perfect setting for teenagers to encounter God and His Word while challenging them to live out their faith in tangible ways. At High Adventure Camp (HAC), campers will develop outdoor living skills in a small group environment alongside our professional guides who are committed to safety.

TREK Camp is an intermediate level High Adventure program. While camping in various locations and participating in outdoor adventures, TREK campers will work on developing wilderness skills, leadership, and Christ-likeness. Campers will be challenged with the timeless truth of God's Word through a half day solo experience and relevant Bible studies.

## WHAT WILL I DO?

**Age:** 14-17 year olds **Capacity:** 8-10 campers

The week of TREK Camp is designed to expose campers to a variety of adventure activities and to develop outdoor skills while relating each experience to the Bible. Living in the great outdoors lends itself to developing close friendships with those who are discovering new places and things in God's creation. We want to prepare campers spiritually for their journey through high school and beyond by challenging them to live the greatest adventure.

### Adventure Activities:

- Class V Whitewater Rafting (New River)
- Backpacking
- Low Ropes Teambuilding
- High Ropes Course
- Wild Caving
- Rock Climbing/Rappelling
- Half Day Solo Experience

### Outdoor Skills:

- Orienteering (map & compass)
- Nature Lore
- Knot Tying
- Camp Cooking
- Shelter Building
- Basics to Backpacking
- Leadership/Decision Making

## **WHERE WILL I STAY?**

TREK Camp is a wilderness adventure experience where you will get to experience primitive camping in a variety of locations and in a variety of ways. Some locations will have access to shower and toilet facilities while others will not. You will stay in platform tents for part of the week, learn to set up a tent at other locations and even build your own shelter with a tarp on an overnight backpacking trip.

## **WHO WILL I MEET?**

You will have an opportunity to build deep relationships and engage with other teens who enjoy adventure and the outdoors. The girls will be led by skilled female counselors/adventure guides and the boys will be led by skilled male counselors/adventure guides. See what former TREK Campers have said about the leaders and fellow camp experience:

**The best part of camp was “the relationships and friendships we made.”**

**Campers say the biggest impact from camp is “the leaders”, “the other people”, and “working as a team.”**

## **WILL I BE SAFE?**

As with any outdoor program there are inherent risks that are involved. Our summer staff go through an application process with references and background checks, extensive training for their specialized areas, are certified in first aid and professional CPR, and most are training at Appalachian Bible College for vocational Christian ministry. The overall trip leader has 15+ years of experience and is trained as a Wilderness First Responder. Alpine has developed an emergency action plan to care for various emergency scenarios. The closest medical facility will be approximately 20 miles from the furthest campsite.

## **Physical Fitness**

If you have never participated in wilderness or adventure activities you may be wondering how physically challenging this camp will be. We have designed our program to have some flexibility built in so that trips can be adjusted to the abilities of the group. Each camper, no matter how strong or weak they think they are, will be encouraged to stretch themselves in all areas, spiritually, mentally, socially, and physically. We will be active and moving each day as well as carrying a 20-25 pound backpack for an overnight backpack trip. If your idea of physical activity is going to the fridge during commercials, you may want to prepare your body some but you do not have to be in top shape to participate. A positive attitude and a willingness to push yourself out of your comfort zone will be invaluable when facing challenges. If you have any questions, please contact our office. Due to weather conditions and assessment of group ability and needs, activities are subject to change.

## Registration Reminders

- **Return by June 1:** Medical Form, Release/Assumption of Risk Form
- **Place:** Alpine Lodge at Appalachian Bible College
- **Time:** Monday, 1:00-2:00 pm
- **Bring:** Remaining balance due, Medications (turn in at registration)

## Departure Time

Parents may pick up their children at 9:00 am on Saturday from gymnasium.

## Medical Information

After registering for a program, you will be given a medical form to be filled out. This form should be returned or mailed to camp by June 1. All medications must be turned in during registration. All medications must be brought in original containers and labeled with camper's name, contents, and dosage.

## Release and Assumption of Risk Form

In order for a camper to participate in the adventure activities, he/she must have his/her parent/legal guardian's signature on our form. This form must be returned or mailed to camp by June 1.

## Clothing Policy

Clothing must be neat and modest. Shorts are to be no shorter than three inches above the knee. Shirts with sleeves are preferable; no bare midribs or spaghetti straps. Modest bathing suits (no exposed midribs) for girls, boxer-type trunks for guys. Clothing must not display alcohol, tobacco, vulgarity, or secular bands. Alpine reserves the right to make the final decision on any clothing considered inappropriate. For outdoor activities, it is a good idea to bring clothes made out of quick-drying synthetic materials such as nylon or polyester instead of cotton. Cotton dries slowly and can cool the body quickly.

“Experience  
the  
Adventure!”

# Creation Stewardship

*Minimizing environmental impact through biblical stewardship.*

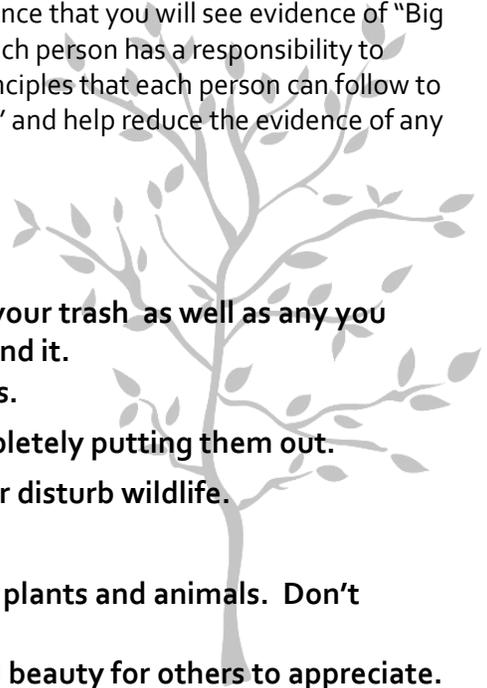

## Beware of Big Foot!

On every trail, by every stream, and anywhere around camp there is always a chance that you will see evidence of "Big Foot." Some of the clues from "Big Foot" are more noticeable than others but each person has a responsibility to minimize the impact that "Big Foot" leaves on an area. There are some basic principles that each person can follow to demonstrate their care and stewardship for God's creation. Don't be a "Big Foot" and help reduce the evidence of any "Big Foot" sightings we find.

- Stay on marked trails in single file.
- Do not cut off on switchbacks.
- Pack out what you pack into the backcountry. Properly dispose of your trash as well as any you find along the way. Leave the area in better condition than you found it.
- Properly dispose of human waste away from water, camp, and trails.
- Help prevent forest fires by tending fires and camp stoves and completely putting them out.
- Don't feed the animals, especially bears. Don't remove bird nests or disturb wildlife.
- When possible, walk on durable surfaces.
- Care for all of God's living creatures, don't needlessly kill or destroy plants and animals. Don't carve on or cut down trees for firewood.
- Take pictures but not wildflowers, rocks, or artifacts. Leave natural beauty for others to appreciate.

*"The earth is the Lord's  
and the fullness thereof"  
Psalm 24:1a*
